FIT24

3-MONTH STAGED ROLLOUT STRATEGY // VISUAL EXECUTIVE PROPOSAL

FIT24 THALASSERY, KERALA
Facility Launch: Grand Opening (Oct 18, 2026)
Architecture: Month 1 (Front Desk) → Month 2 (Trainers) → Month 3 (Members)
Target Audience: FIT24 Executive Leadership & Management

EXECUTIVE PHILOSOPHY: WHY STAGED ROLLOUT GUARANTEES OPENING-DAY SUCCESS

ZERO OPENING-DAY CHAOS

Most luxury gym openings fail due to **software overload on Day 1**: forcing 200 excited new members to download apps, configure logins, and queue at the desk while trainers struggle with new interfaces. FIT24 avoids this completely with a phased launch: **Month 1 concentrates 100% on the Front Desk CRM** to collect membership fees, track floor check-ins & check-outs, issue 18% GST invoices, and lock sauna/ice bath access. Once reception runs like clockwork, Month 2 equips trainers, and Month 3 presents the member mobile portal as an exclusive VIP upgrade.

STRATEGIC COMPARISON: COMMERCIAL GYM SOFTWARE VS FIT24 CUSTOM PLATFORM

STRATEGIC CRITERIA	COMMERCIAL OFF-THE-SHELF GYM SOFTWARE	FIT24 CUSTOM PLATFORM (PROPRIETARY)
Recurring Software Cost	**₹25,000 to ₹45,000 / Month** every single month + per-seat license fees.	**₹0 / Month Forever**. Fully owned outright asset. **Saves ₹3,00,000–₹5,00,000/yr**.
Brochure Policy Matching	Generic rigid templates. Cannot enforce FIT24's 3-month pause rule or exact sauna/ice bath tier limits.	**100% Exact Policy Match**. Engineered specifically to FIT24's brochure rules and Kerala GST laws.
Member App Friction	Forces 100MB App Store / Play Store download. 40% of members forget passwords or refuse to install.	**Instant Progressive Web App**. Opens in 2 seconds via reception QR standee scan. Zero downloads.
Check-In & Check-Out Speed	Slow 45-second check-in creates front desk queues during morning & evening peak rush hours.	**Lightning 3-Second Check-In & 1-Click Check-Out**. Net live headcount tracked in real time.
Amenity Quota Defense	Sauna & cold plunge handled as messy paper coupons easily misplaced, forged, or shared.	**Strict Digital Passbooks**. 1-click deduction showing exact remaining quota (e.g. `3/4 Left`).
Data Ownership & Security	Member database stored on vendor's shared cloud. Vendor can hike renewal prices or withhold data.	**100% FIT24 Private Database**. Encrypted cloud storage. FIT24 owns every single record forever.

5-YEAR FINANCIAL CAPITAL PRESERVED FOR FIT24 THALASSERY — ₹18,00,000+ CAPITAL SAVED

By eliminating monthly commercial software fees (avg ₹30,000/mo) and native app maintenance retainers, **FIT24 preserves over ₹18,00,000 directly in club reserves over 5 years**, while giving management total operational independence.
